The Germantown Police Department and Germantown Youth Futures would like to offer another opportunity to expand on the information provided at the drug presentation held on February 9th. Many parents have responded that they enjoyed the presentation but felt there were a lot of questions that may have gone unanswered. Members of the Germantown Police Department, Youth Futures and Germantown High School will be present to answer questions concerning drugs, drug use and the impact of drugs in our community. To answer as many questions as possible, please submit your questions to Officer Ray Borden at the email address below by April 21st. Please also RSVP your attendance.
